I have heard some of the people in my neighborhood talk about the Sutter Auburn Faith Home Health program. Can you explain this program?

Hearing Aids vs Mail Order Amplifiers. Is there a big difference between hearing aids purchased through a professional office and those you can get in the mail?

Of course there is a big difference. Although the price of an amplifier mailorder hearing aid is much less so is the sophistication of technology. Many of these devices are less than $300 but do little more than just amplify the sound around you. There are no 1 or 2 watt to adjust then. But real hearing aids have enormous flexibility with hundreds of adjustment points. If you are the primary driver in making your decisions, then consider a mailorder hearing aid or entry level technology. Both of these options can save you a considerable amount of money.

Could my everyday personal care products be negatively affecting my health?

On an airplane, an oxygen mask descends in front of you. What do you do? As we all know, the first rule is to put on your own oxygen mask before you assist anyone else. Only when we first help ourselves can we effectively help others. What do you do? As we all know, the first rule is to put on your own oxygen mask before you help anyone else. Only when we first help ourselves can we effectively help others.

I attended your workshop about senior care options & caring for your aging loved ones. I found many of the topics & discussion to be very helpful. Do you ever lead this type of presentation for private groups?

Yes, I have presented this workshop for local church groups, senior groups & support groups. We discuss the options & differences in senior care available in our area (In-Home Care, Hospice, Residential Care Homes, Skilled Nursing & Hospice). What to look for, what their cost is & how to pay for it. Tips for camping, along with the symptoms, challenges & different types of dementia are among some of the important topics we discuss. Let’s set up a date to schedule a date with your small group. Please call me to discuss how I can help further.

How much money should a trustee of a trust receive for trustee’s fees?

Unless the trust states specifically how much a trustee receives, then California Law states that a trustee’s fees must be “reasonable” as typically advise clients to maintain a log describing and dating the tasks performed, the amount of time required to complete the task and an appropriate rate of pay. If the fees are in dispute a beneficiary can ask a court to review the amount of fees charged by the Trustee and in doing so, the court will look to factors such as the amount of assets in the trust, the complexity of the tasks, the rate of pay associated with the task and the benefits received by the trust as a result of the tasks completed.
